A Legacy of delivering promises since 1950

A PROGRAM FOR FUTURE LEADERS.

Knowledge is one of the biggest fundamental tools to become a successful leader. One must grasp all the possible knowledge for the constant learning and development of mind. But a great leader becomes great not only because of his knowledge but also with his experiences.

So, to enhance the skills and the knowledge and to share some experiences with our employees, we organized a Leadership program which was conducted by Sonia Mehta. She is a communication skills and leadership coach. Sonia shared her valuable experiences, knowledge, skills that worked as an influence for our employees to reach the highest point in their careers. The program took place at Ambassador Hotel, Mumbai.

Leadership is more than just a quality, it's a lifestyle. A lifestyle that unlocks the doors for great powers and potential around you. Leadership is all about bringing your people together to achieve huge success and greater results.
